COMPUTER SCIENCE EXIT REQUIREMENT

Student Contract

I. I plan to take the following to satisfy the Computer Science exit requirement (check or circle one).

   a. I am planning to take a capstone course (skip to II)
   b. I am planning to take the comprehensive exam
   c. I am planning to take the GRE (Computer Science Subject Test)
   d. I am planning to complete a senior thesis

II. I am planning to take the following course (circle one) to satisfy the capstone requirement for the CS degree. I understand that a course cannot be attempted more than two times per Senate regulation 9.1.8 (http://senate.ucsc.edu/manual/SCregs.htm) and SoE policy on repeating courses (General Catalog, page 192) -- no course may be attempted more than twice without prior approval from the chair of the department offering the course. W's count as an attempted class for this purpose.

   a. CMPS 116 - Software Design Project
   b. CMPS 140 - Artificial Intelligence
   c. CMPS 161/L - Visualization and Computer Animation
   d. CMPS 181 - Database Systems II
   e. CMPS 183 - Hypermedia and the Web

III. List the courses that you think are most relevant to the project you plan to work on in your capstone course.

   a. ____________________________________
   b. ____________________________________
   c. ____________________________________
   d. ____________________________________
   e. ____________________________________

IV. Why did you choose this pathway for satisfying your comprehensive requirement (as opposed to taking the comprehensive exam, GRE, or doing a senior thesis)?
